Abridged Content Outline:

- Enjoy a participatory workshop while gaining a working knowledge of the Imaginal approach principles and concepts pertinent to the field and practice of intermodal therapies
- Learn to engage with your own reactions and transform them to a reflexive awareness through the use of transformative practices.
- Experience the main principle of the Imaginal Approach, ‘Exploration before Explanation.’
- Learn about intermodal therapies and the ways that they can support you personally, professionally, and in community building.
- Be guided through various intermodal therapies and create your own art image.
- Observe a beginning introduction to dialoging with art images.
- Learn how to transition your participatory experiences into new ways of self care and interventions with your clients.
